ECO-CAMPUS WORK PROGRAMME
(updating 18/12/2011)

Saturday, May 12 - 2012:

Arrival of participants. Accommodation at the mining village of Rosas

10:00 - 19:00: Welcome to participants

19:00 - 20:30: Welcome drink
20:30 - 21:00: Staff presentation

21:00 - 23:00: Dinner

Sunday, May 13 - 2012:

09.00 - 18.00: Tour of the mining areas of Sulcis - Campo Pisano - Monteponi Anglosarda Gallery, San Giovanni Mine: Cave of Santa Barbara, lunch at "1903 Restaurant" Nebida – Lamarmora Washing Piant - Henry Gallery

19:00 - 21:00: Free Time
21:00 - 22.30: Typical Sardinian dinner

Monday, May 14 - 2012:

09.00 - 10.00: Formation of thematic working groups
10.00 - 18.00: Presentation of the theme of work. First survey in the field (packed lunch)

19:00 - 20:30: Groups formation and organization of a stage performance
20:30 - 22:00: Dinner

Tuesday, May 15 - 2012:

09.00 - 13.00: Field survey
13.00 - 14.30: Lunch and free time

14.30 - 19.00: Workshops with tutors

19:00 - 20:30: Cooking Competition
20:30 - 22:00: Dinner

Wednesday, May 16 - 2012

Thematic Seminars

Learning Unit: Naturalistic Engineering

09.00 - 10.00: Short history of Naturalistic Engineering
10.00 - 11.30: Relationship between Landscape Ecology and Naturalistic Engineering
11.30 - 13.00: The Naturalistic Engineering projects in the Italian and European regulatory environment

Learning Unit: Landscape Architecture

09.00 - 11.00: The European Landscape Convention
11.00 - 13.00: The value of the landscape

Learning Unit: Cultural Heritage - Industrial Archaeology

09.00 - 11.00: Industrial Archaeology between history and progress
11.00 - 13.00: Development of the industrial processes:
from the Industrial Revolution to the Modem Industry

AFTERNOON - Thematic workshops

13.00 - 14.30: Lunch + Free time
14.30 - 18.30: Workshops with tutors

EVENING – Rest and re-creation

18:30 - 20:00: Free Time
20:00 - 23:00: Dinner at the **ROTARY CLUB CARBONIA**

Thursday May 17 - 2012

Thematic Seminars

Learning Unit: Naturalistic Engineering

09.00 - 11.00: Basic methodology for the design of Naturalistic Engineering techniques
11.00 - 13.00: The materials

Learning Unit: Landscape Architecture

09.00 - 11.00: Places of production (industrial landscape, ecological defragmentation, aesthetics of the workplace)
11.00 - 13.00: Perception of the landscape

Learning Unit: Cultural Heritage - Industrial Archaeology

09.00 - 11.00: The proto-industry and the neo-industry;
11.00 - 13.00: The analysis of the Industrial cultural heritage;

AFTERNOON - Thematic workshops

13.00 - 14.30: Lunch + Free time
14.30 - 18.30: Workshops with tutors

EVENING – Rest and re-creation

18:30 - 20:30: Lesson on Typical Sardinian cookery
20:30 - 22:00: Dinner
22:00: Fellowship events: cine-forum with Sardinian subtitled film screening

Friday, May 18 - 2012:

Thematic Seminars

Learning Unit: Naturalistic Engineering
09.00 - 13.00: Bioclimatics and natural climatization of buildings

Learning Unit: Landscape Architecture
09.00 - 11.00: Sustainability and landscape;
11.00 - 13.00: Alterations of the landscape

Learning Unit: Cultural Heritage - Industrial Archaeology
9.00 - 13.00: Protection and enhancement of cultural heritage;

AFTERNOON - Thematic workshops

13.00 - 14.30: Lunch + Free time
14.30 - 18.30: Workshops with tutors

EVENING – Rest and re-creation

18:00 - 20:00: Free Time
20:00 - 22:00: Dinner at the **ROTARY CLUB IGLESIAS**

Saturday, May 19 - 2012:
9.00 - 13.00: Meeting with Local Authorities
13.00 - 15.00: Lunch
15:00: Departure for Cagliari
16:30: Arrival in Cagliari
16:30 - 18:00: City Tour Cagliari
18:00 - 19:30: Trekking Sella del Diavolo
20:00 - 22:00: Barbecue Belvedere (Viale Europa)

Sunday, May 20 - 2012:
09:30: Departure to Montevecchio
11:00: Arrival in Montevecchio
11:00 - 13:00: Visit to the Montevecchio Mine
13:00 - 13:30: Departure to Piscinas
13:30 - 15:00: Packed Lunches
15:00 - 16:30: Visit to Ingurtosu Mine
17:00: Return to Rosas
18:30: Arrival to Rosas
18:30 - 20:30: Free Time
20:30 - 22:00: Dinner

Monday May 21 - 2012

Thematic Seminars

Learning Unit: Naturalistic Engineering

09.00 - 11.00: The biotechnical characteristics of the plants used in naturalistic engineering
11.00 - 13.00: Stability of slopes affected by erosion using naturalistic engineering techniques

Learning Unit: Landscape Architecture

09.00 - 11.00: Taxonomic and qualitative classification of the landscape
11.00 - 13.00: Environmental impacts on the landscape (Environmental impact studies, Strategic Environmental Evaluation, minimization and compensation)

Learning Unit: Cultural Heritage - Industrial Archaeology

09.00 - 11.00: The industrial environment in Sulcis Iglesiente in the early 900: the mineral resources;
11.00 - 13.00: Analysis of the classification forms for the cultural heritage

AFTERNOON - Thematic workshops

13.00 - 14.30: Lunch + Free time
14.30 - 18.30: Workshops with tutors

EVENING – Rest and re-creation

18:30 - 20:00: Trip to Cagliari
20:00 - 22:00: Dinner organized by AEGEE at San Michele Castle in Cagliari
22:00: Classic Music Concert at San Michele Castle

Tuesday, May 22 - 2012

Thematic Seminars

Learning Unit: Naturalistic Engineering

09.00 - 11.00: Anti-erosion techniques
11.00 - 13.00: Slope stabilization techniques

Learning Unit: Landscape Architecture

09.00 - 11.00: Land and planning (planning, managing the change at the scale of the territory and of the city)
11.00 - 13.00: Techniques: high tech vivarium, vertical green, green roofs.

Learning Unit: Cultural Heritage - Industrial Archaeology

09.00 - 11.00: Techniques and methods of restoration and recovery of industrial heritage
11.00 - 13.00: Marketing and organization of cultural institutions

AFTERNOON - Thematic workshops

13.00 - 14.30: Lunch + Free time
14.30 - 18.30: Workshops with tutors

EVENING – Rest and re-creation

18:30 - 20:00: Free Time
20:00 - 22:00: Dinner in Carbonia

Wednesday May 23 - 2012

Thematic Seminars

Learning Unit: Naturalistic Engineering

09.00 - 11.00: Naturalistic Engineering techniques commonly used in mining areas
11.00 - 13.00: Naturalistic Engineering techniques commonly used in the protection of watercourses

Learning Unit: Landscape Architecture

09.00 - 11.00: Landscape and tourism in the third millennium:
the multifunctionality of the landscape, from environmental quality
to tourism systems development as an opportunity for the future
11.00 - 13.00: Landscape of water, water in the landscape: the ecological, recreational and aesthetic
role of rivers, lakes, wetlands and expansion boxes, etc..
play or can play at the urban and regional scale

Learning Unit: Cultural Heritage - Industrial Archaeology

09.00 - 11.00: Museums, archives and networks in the policy for the industrial heritage: basic issues
11.00 - 13.00: Producing an exhibition: analysis of the exhibition environment and exhibition planning

AFTERNOON - Thematic workshops

13.00 - 14.30: Lunch + Free time
14.30 - 18.30: Workshops with tutors

EVENING – Rest and re-creation

18:30 - 20:00: Free Time
20:00 - 22:00: Dinner
22:00: Fellowship events: Cine-forum

Thursday, May 24 - 2012

Thematic Seminars

Learning Unit: Naturalistic Engineering

09.00 - 11.00: Review of techniques: the relationship between landscape
ecology and environmental engineering
11.00 - 13.00: Theoretical scientific insights

Learning Unit: Landscape Architecture

09.00 - 11.00: The good practice of Landscape Design.
Criteria and guidelines for the protection of the landscape
11.00 - 13.00: Drosscape, or the conversion of degradation into opportunities:
the landscapes of the future projects in the recovery of quarries, landfills, abandoned areas

Learning Unit: Cultural Heritage - Industrial Archaeology

09.00 - 11.00: Medley of the most relevant experiences and achievements
in the recovery of industrial archaeological heritage
11.00 - 13.00: The exploitation of industrial heritage and landscape through forms of art:
conservation, re-construction of memory, re-vitalization

AFTERNOON - Thematic workshops

13.00 - 14.30: Lunch + Free time

14.30 - 18.30: Workshops with tutors

EVENING – Rest and re-creation

18:30 - 20:00: Free Time
20:00 - 22:30: Dinner at the **ROTARY CLUB CAGLIARI**
22:30 - 23.30: Return to Rosas Mine

Friday, May 25 - 2012:

09.00 - 13.00: Meeting of the three teaching units and coordination of the themes developed
11.00 - 13.00: Intervention of an EU official: Community Programs and industrial heritage

AFTERNOON - Thematic workshops

13.00 - 14.30: Lunch + Free time
14.30 - 18.30: Workshops with tutors

EVENING – Rest and re-creation

18:30 - 20:00: Free Time
20:00 - 22:00: Dinner
22:00: Free Night

Saturday, May 26 - 2012:

9.00 - 13.00: Meeting of the three teaching units and coordination of the themes developed
13.00: Lunch
14.00 - 15.00: Afternoon break
15.00 - 19.00: Public Presentation of the themes developed
19.00 - 20.00: Free time
20.00 - 22.00: Gala Dinner

Sunday, May 27 - 2012:

Departure of participants
